INFORMATION AND GUIDELINES FOR PRE-INTERNSHIP EVALUATION 2019

The next evaluation for medical graduates will take place on 27 September 2019. The format of the evaluation will be written multiple-choice questions. The evaluation will consist of five (5) basic domains of medicine organized into one paper and to be written over a period of four (4) hours. The domains to be evaluated are: General surgery, Obstetrics & Gynaecology, Paediatrics, Internal Medicine and Psychiatry. Each domain consists of thirty (30) questions long (Total of 150 questions). Candidates must reach 50 % pass mark in each domain. If one or two domains are failed, those domains may be supplemented at the next evaluation. If three or more domains are failed, the candidate has failed the entire evaluation and his or her case will be managed in accordance the evaluation policy of the Council. Those taking supplementary evaluation are expected to write only specific domain (s) they have failed at the last sitting. The evaluation is voluntary and those who feel not ready to be evaluated in September 2019 may opt to sit for the subsequent evaluations during January/ February or September/November 2020.

The reading materials for this evaluation are:
Psychiatry domain
1. Kapalan and Sadocks Synopsis of Psychiatry
